

October 22, 2004

Dear Rotarian:

President Jack Hamilton asked that we conclude the fundraising effort for the *Centennial Clock* project as quickly as possible. This will allow us to proceed with design and make contractual commitments.

As the enclosed update shows, the response from Rotarians has been strong. But we have not heard from you. Our goal is to have support from all Rotarians. As a guideline, we suggest that each Rotarian contribute \$250, but some have contributed more and some less. Whatever you decide will be greatly appreciated.

Keep in mind that your contribution is in addition to regular contributions to Rotary Charities. We are committed to fund fully all regular projects – the *Centennial Clock* is above and beyond what is normal.

Donations are fully tax deductible. Major donors will receive recognition on plaques to be designed as part of the project. Checks should be payable to **San Marino Rotary Charities**. A stamped response envelope is enclosed.

Thank you for your support.

Dennis Kneier  
Fundraising Committee Co-chair
